

The app should be able to show:

1. Participants only. Searching in this mode will only search through the list of participants.
2. All passengers. Works as the current code base (2018-09-27).

In mode 1 (Participants only) it should still be possible to un-tick a participant who would then disappear from the list.

The list should either be sorted by:

1. Name alphabetically
- or
2. Booking number followed by Name

Examples:

1. Anna Andersson  
Bengt Andersson  
Bengt Johansson  
Christer Olsson
2. 642810 Björn Dahlström  
642810 Ingrid Dahlström  
645454 Anna Olsson  
645454 Bengt Olsson  
650101 Sven Gustafsson
